### **CONSTRUCTION**, in LIVADA.

- **PROJECT** : This work-camp began in 2008. We plan that these 4 work-camps will finish the construction of a house for old people. The volunteers will go on a trip to Turda Salina and the gorges (Cheile Turzii).

- **WORK** : The task of the volunteers will consist in activities concerning the construction of a house for old people, more specific in the finishing part of the building process .

During the work-camps organized to carry out this project, the volunteers will have different activities, such as rough-cast the building, plastering, cleaning, pavilion construction, planning yard and garden.

- **ACCOMODATION** : In a part of the house for old people of Livada village. The bathroom is in the building but you will have the opportunity to take outdoor showers and enjoy a beautiful summer in a traditional Romanian village.

- **LOCATION** : Livada is a small village in Cluj county, situated 30 km away from Cluj-Napoca. Close to Livada you can find the city of Campia Turzii and the Turda Gorges (Cheile Turzii), the most popular gorges in the Apuseni Mountains and the most extraordinary gorges in Romania (because of the height, number and variety of the walls, several species of rare plants). Being one of the most important growers of the county, Livada as well as its economy is sustained by the agriculture. Smaller commercial houses, some family businesses, services and a small industry complete its economical spectrum.

- **Meeting point** : Cluj Napoca.

- **LANGUAGE OF THE CAMP**: English

- **EXTRA FEE** : 60 EUR

### **RENOVATION, ECOLOGIC**, in GROȘII ȚIBLEȘULUI commune, Țibleș Mountains

- **PROJECT** : This work-camp is part of in a global project of promotion of responsible tourism or ecotourism. In fact, Romania has a great number of untouched panoramas and it is important to protect and respect them. That is why this work-camp raises awareness of the local community but also from young people coming from all countries that might as well be tourists. Running this work-camp is important because it raises the awareness of the local community regarding nature conservation and a responsible touristic development.

- **WORK** : This work-camp is directly linked with the mountainous nature because it plans to build trekking trails from the village to the mountains. Therefore, we recommend and advise the volunteers to have a good physical condition in order to walk in the mountains without difficulty. Other activities will consist in rebuilding of a traditional house in Maramures and transforming this house in a local museum.

This work-camp will be focus more on the outdoor activities.

- **ACCOMODATION** : Camping in tents with outdoor running water facility and outdoor dry toilet which are clean. Meals most often are provided by the local community but there may be situations in which volunteers will have to cook for themselves (food provided by organisers). It is recommended that the volunteers bring the minimum of camping/outdoor equipment with them: boots, tent, sleeping bag, rucksack, rain coat, warm clothes, hat, personal spoon, fork and cup. The organisers can provide tents for the volunteers who don't have one.

- **LOCATION** : Groșii Țibleșului is a small village at the foothills of Țibleș Mountains, located in the North of Romania, in Maramureș county. The historical Maramureș region is a living "outdoor museum" famous for its unchanged way of life and for its well-preserved wooden villages and churches. It is perhaps one of the best-known tourism destinations in Romania.

The Țibleș are volcanic mountains (not active) well known for the old growth forests that cover their slopes, for the mountain meadows with a rich flora and for the beauty of the landscape. In this region one can still see local people who are manually mowing the meadows, shepherds who are preparing the cheese in traditional way and buffalo herds that are pasturing close to the village.
